

TSR Supaslim Combi

Features:

- Combines economic tariff rate storage heater with a fast and responsive Warmflow fan heater for instant room heating.
- The slimmest storage combination heater available.
- 'Sensamatic' fully automatic storage heater output ensures room comfort levels are maintained throughout the day without user intervention.
- Accurate storage heater input is controlled by a manually adjustable hydraulic sensor which works effectively on virtually any low cost tariff.
- The Warmflow fan heater has independent thermostatic control accurate to within 0.5°C.
- Warmflow gives better heat distribution helping avoid heat stratification.
- Quiet, low velocity Warmflow fan.
- All controls are concealed behind a lockable flap.
- Newera colour and softform styling.

Benefits:

The Creda Supaslim Combi heater is effectively two heaters in one, combining economic, efficient storage heating using low-cost tariff electricity with an independently thermostat-controlled Warmflow fan system for instant room heating.

Performance:

The Creda Supaslim Combi heater is effectively two heaters in one, combining economic, efficient storage heating using low-cost tariff electricity with an independently thermostat-controlled Warmflow fan system for instant room heating. With the Warmflow fan system built into the base of the heater, the Creda Supaslim Combi is the slimmest combination heater on the market.

Variations

TSR18CW:

Power (kW):	2.5
Storage Capacity:	17.6
Direct Acting:	1.5/0.75
Number of Bricks:	12
Weight (kg):	114
TSR24CW:	
Power (kW):	3.4
Storage Capacity:	23.5
Direct Acting:	2.0/1.0
Number of Bricks:	16
Weight (kg):	149
TSR12CW:	
Power (kW):	1.7

TSR Supaslim Combi

TSR12CW (cont.):

Storage Capacity: 11.8
