WARM AIR HAND DRYERS

HIGH PERFORMANCE HAND & FACE DRYERS

The Tornado is our highest quality hand dryer, offering:

- *an extremely high airflow rate*
- *strong scratch-proof enamel case*
- *a choice of automatic (CYCA24F) or manual (CYC24F) operation*
- *classic look*

CYCA24F

Even small details such as packaging, fixings and installation template have been carefully designed to ensure that the Tornado delivers maximum satisfaction for users, installers, wholesalers and specifiers alike.

An efficient motor and careful airflow analysis ensure that the Tornado can deliver superb drying performance with a total input consumption of just 2.4kW.

CYC24F

It is well suited to high traffic situations such as service stations, clubs, railway stations and similar projects.

The chrome nozzle can be rotated for hands or face drying and the high engineering design specification ensures low lifetime operating costs.
