WARM AIR HAND DRYERS

GENERAL PURPOSE METAL CASED HAND & FACE DRYERS

Cyclone 2.2kW and 1.8kW

Hyco Cyclone hand dryers represent a good general purpose option where there is a requirement to balance performance, reliability and cost. All the Cyclone models feature hand and face drying and all are suitable for challenging situations such as nightclubs, shopping centres, pubs and similar applications

There are two sizes in this range - 1.8kW and 2.2kW - and both are available in manual or automatic versions.

From 2004 all Cyclone hand dryers will have 30% extra airflow for significantly faster drying times.

TECHNICAL DATA

CODE	DESCRIPTION	OPERATION	CASE	kW	DIMENSIONS
ASA	Senior 2.0kW Automatic	Automatic	Aluminium	2.0	295 x 245 x 125
CYC18F	Cyclone 1.8kW Push Button	Manual	Aluminium	1.8	220 x 248 x 170
