

Overview

Filtered, chilled water

Zip Chillmaster®, Zip AquaChill®, Zip Chilltower®,
Zip Chill Fountain®, Zip Wall Fountain®, Zip Chill Tap®

Zip's range of point of use, mains fed chillers are designed for the work place environment and provide fresh drinking water at a fraction of the cost of bottled water, paying for themselves in a matter of weeks depending on local requirements. Directly supplied drinking water is the "green solution" to expensive bottled water.

Work colleagues can enjoy an endless supply of fresh chilled filtered water without anyone having to worry about paying for bottles of water

Moreover, there is no wasted office space to store water bottles and time is saved by not waiting for deliveries or supervising bottled water shipments
